

GPS Freight One

Hardwired 4G LTE GPS Tracking Unit — Device Specifications

1. POSITIONING & CONNECTIVITY

Network	LTE 4G
Positioning Mode	GSM, GPS, GPRS, LBS, AGPS, BeiDou, Real-Time Positioning, Emergency Positioning
Frequency (4G)	LTE-FDD: B1 / B2 / B3 / B4 / B5 / B7 / B8 / B28 / B66 LTE-TDD: B34 / B38 / B39 / B40 / B41
Module & Chipset	SIMCOM7670SA
GPRS Protocol	Class 12, TCP/IP

2. CORE FUNCTIONS & USE

Function	Engine Disable, Anti-Shock, Fast Charging, Street View, ACC Detection, Over-Speed Warning, Wheel Path Playback, Geofence, Anti-Theft Alarm, SOS Alarm.
Use	Truck, Motorcycle, Automotive, Bicycles, Other

3. HARDWARE & POWER

Working Voltage	9–90 V DC
Battery Life	< 12 hours (internal backup battery)
Dimensions	79 × 34 × 18 mm
Placement	Windshield, Dashboard
Installation Type	Wiring (hardwired)
Certification	FCC, CE
Warranty	1-year manufacturer warranty
Model Number	GFO-01

4. SOFTWARE & ACCESS

Data Storage	Cloud storage, accessible remotely
Track View	PC (web dashboard), iOS App, Android App
App Name	Gps Freight One Manager

Specifications reflect the standard GPS Freight One hardware unit and are subject to change without notice. Cellular coverage and update frequency depend on carrier network availability. Contact our team for fleet-specific configuration questions.
